

TOWNSHIP OF BIRCH RUN

At a Special meeting of the Township Board of Birch Run, Saginaw County, Michigan, held in the Township Hall on March 2nd, 1995 at 7:30 pm. Eastern Standard Time, there were:

PRESENT: Edward Magnus Supervisor, Sheila DiBerardino Clerk, Nancy

Henige Treasurer, Larry Russell, Gary St Charles, David Stewart
Trustees

ABSENT: JoAnne Strahm Trustee

The following preamble and resolution were offered by Henige and seconded by DiBerardino.

**RESOLUTION APPROVING THE CONTRACT BETWEEN
THE TOWNSHIP OF BIRCH RUN AND THE COUNTY OF SAGINAW
FOR THE BIRCH RUN TOWNSHIP WATER SUPPLY SYSTEM,
WATER EXTENSION NO. 3 AND FOR ISSUING REFUNDING
BONDS TO REFUND SAGINAW COUNTY WATER SUPPLY BONDS
BIRCH RUN SYSTEM EXTENSION NO. 1**

WHEREAS, the County of Saginaw (the "County") by resolution of its Board of Commissioners has approved the establishment of a project currently known as the "Birch Run Township Water Supply System, Water Extension No. 3" (the "Project"); and

WHEREAS, the Township of Birch Run (the "Township") is being required by the United States of America to refinance the Saginaw County Water Supply Bonds, Birch Run System Extension No. 1 (the "Prior Bonds") by issuing its refunding bonds.

WHEREAS, it is necessary for the Township to enter into a contract with the County with respect to the Project and the refunding of the Prior Bonds, which contract is attached as Appendix 1.

NOW, THEREFORE, IT IS RESOLVED BY THE TOWNSHIP BOARD as follows:

1. The contract attached as Appendix 1 is hereby approved as is the execution thereof by the designated officials.
2. All resolutions, or portions thereof, insofar as they may be in conflict with the foregoing, are hereby rescinded.

A vote on the foregoing resolution was taken and was as follows:

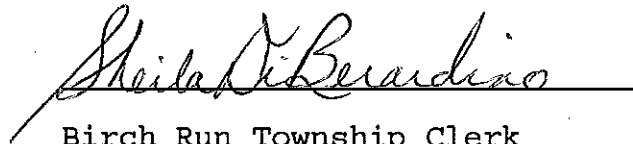

YES: Magnus, DiBerardino, Henige, Russell, St. Charles, Stewart

NO: None

ABSTAIN: None

CERTIFICATION

The undersigned, being the Township Clerk of the Township of Birch Run, hereby certifies that (1) the foregoing is a true and complete copy of a resolution duly adopted by the Township Board at a Special meeting held on March 2nd, 1995, at which meeting a quorum was present and remained throughout, (2) that an original thereof is on file in the records of the Township, (3) the meeting was conducted, and public notice thereof was given, pursuant to and in full compliance with the Open Meetings Act (Act No. 267, Public Acts of Michigan, 1976, as amended), and (4) minutes of such meeting were kept and will be or have been made available as required thereby.

Birch Run Township Clerk
Sheila DiBerardino

CONTRACT

THIS CONTRACT (the "Contract") is made as of March 1, 1995, by and between the COUNTY OF SAGINAW, a Michigan county (the "County") and the TOWNSHIP OF BIRCH RUN, a township located in the County (the "Township").

The County has approved the construction of certain extensions to the Township's watermain system in the Township as described in Exhibit A and intends to construct such improvements pursuant to Act No. 185, Michigan Public Acts of 1957, as amended ("Act 185"). The Department of Public Works of the County (the "DPW") under the control and direction of the Board of Public Works has been established to administer the powers conferred upon the County by Act 185. The County and the Township are authorized to enter into a contract for the establishment, construction, operation, and financing of the Project (the "Cost" or "Costs" shall mean the total cost of the Project unless the context clearly indicates otherwise) and for the payment in case of part of the Project and a part of the Cost of the Project by the Township with interest, over a period not exceeding 40 years. The County is also authorized to hereafter issue its bonds to be secured by the limited tax full faith and credit contractual obligations of the Township and by the limited tax full faith and credit of the County.

The County and the Township have concluded that the establishment and construction of the improvements described on Exhibit A (the "Project") are needed to promote and improve the health and welfare of the residents of the Township and that the Project can most economically and efficiently be provided and financed by the County acting through the DPW pursuant to the provisions of Act 185.

Bartow & King Engineers has prepared preliminary plans for the Project (such preliminary plans as from time to time revised or the final plans, as the context may dictate, are referred to in this Contract as the "Plans"), which have been placed on file in the office of the DPW.

In consideration of the premises and in order to provide for the establishment, construction, and operation of the Project by the County for the financing of the Project through the issuance of the Bonds (as defined below), for the operation and maintenance of the Project, and for other related matters, the County and the Township agree as follows:

1. Approval of Project. The County and the Township approve and agree to the establishment, construction, operation, and financing of the Project under and pursuant to Act 185. The parties approve the designation of "Birch Run Township Water Supply System, Water Extension No. 3" as the name of the Project. The Township, by way of compliance with Section 29, Article VII, Michigan Constitution of 1963, consents and agrees to the establishment and location of the Project and any extension,

improvement or enlargement of it within its corporate boundaries in accordance with the terms of this Contract or on land presently owned by and located in the Township, and to the use by the County of the streets, highways, alleys, lands, rights-of-way or other public places in the Township for the purpose and facilities of the Project and any improvements, enlargement or extension of it. The Township further agrees that, in order to evidence and effectuate this agreement and consent, it will obtain or assist the County in obtaining all easements, licenses, rights-of-way and/or title to property necessary for completion of the Project and will execute and deliver to the County such easements, rights-of-way, licenses, permits or consents as may be requested by the County. The Cost of obtaining necessary easements, licenses, rights-of-way and/or title to property in connection with the Project shall be Costs of the Project payable from the proceeds of the Bond as set forth below.

2. Project Description. The Project shall consist of the public improvements described and specified in Exhibit A and as are more particularly set forth in the Plans, which Plans are on file with the DPW and are hereby approved and adopted. The Project shall be acquired and constructed substantially in accordance with the Plans and in accordance with final plans and specifications prepared and submitted by Bartow & King Engineers, but variations from the Plans, which do not materially change the location, capacity or overall design of the Project, and which do not require an increase in the total estimated Cost of the Project, may be permitted on the authority of the DPW. Other variations or changes may be made if approved by the DPW and by resolution of the governing body of the Township and if provisions required by paragraph 5 below are made for payment or financing of any resulting increase in the total estimated cost. The estimates of the Cost of the Project, \$344,000, and the period of usefulness of the Project, in excess of 25 years, are likewise approved and adopted. The total bonds which will be required for the Project are estimated to be not in excess of \$344,000.

3. Issuance of Bonds. The County and the DPW shall take or cause to be taken all actions required or necessary, in accordance with Act 185, to procure the issuance and sale of bonds by the County (the "Bonds"), in one or more series, in whatever aggregate principal amount is necessary to defray the Cost of the Project. The Bonds shall be issued in anticipation of, and be payable from, the payments to be made by the Township to the County as provided in this Contract, shall be secured by the full faith and credit and limited taxing power of the County, and shall be payable in annual maturities, the last of which shall be not more than 40 years from the date thereof.

4. Construction. The construction of the Project will be governed by the contracts to be awarded by the DPW after recommendation by Bartow & King Engineers.

5. Increase in Bonds. If, after the sale of the Bonds, it becomes necessary to increase the estimated Cost of the Project for any reason, or if the actual Cost of the Project shall exceed the estimated Cost, whether as the result of variations or changes made in the approved Plans or otherwise, then (without the execution of any further contracts or amendment of this Contract) additional bonds, after approval of an authorizing resolution by the Board of Public Works and upon the adoption of such authorizing resolution by the Board of Commissioners, shall be issued to defray such increased or excess Cost to the extent that funds for the same are not available from other sources; provided, however, that no such increase or excess shall be approved and no such additional bonds shall be authorized to be issued, nor shall the County enter into any contract for the establishment or construction of the Project or any part thereof or incur any obligation for or pay any item of cost therefor, where the effect thereof would be to cause the total Cost of the Project to exceed by more than 5% the total estimated cost as hereinbefore approved, unless the governing body of the Township shall have previously adopted a resolution approving such increase or excess and agreeing that the same (or such part thereof as is not available from other sources) shall be defrayed by the issuance of additional bonds in anticipation of increased or additional payments agreed to be made by the Township to the County in the manner hereinafter provided; provided, further, that the adoption of such approving resolution by the governing body of the Township shall not be required prior to or as a condition precedent to the issuance of additional bonds by the County, if the County has previously issued or contracted to sell bonds to pay all or part of the Cost of the Project, and the issuance of the additional bonds is necessary (as determined by the County) to pay such increased, additional or excess costs as are essential to completion of the Project according to the plans as last approved prior to the time when the previous Bonds were issued or contracted to be sold.

6. Payments by Township. The Township shall pay to the County the Cost of the Project. The Cost of the Project will be defrayed by the issuance of Bonds as provided in paragraphs 3 and 5 above. The Township covenants and agrees to pay the principal of, premium, if any, and interest on the expenses and charges (including the DPW's administrative expenses) which are payable on account of the Bonds (such fees, expenses and charges being called "Bond Service Charges"). Payments shall be made to the County in semiannual installments which shall be due and payable 10 days prior to the day specified in the Bonds as the interest payment dates with respect to the Bonds, in amounts at least

sufficient to pay all principal, premium, and/or interest falling due on such interest payment dates and all Bond Service Charges then due and payable.

The DPW shall, within 30 days after delivery of the Bonds, supply the County and the Township with a complete schedule of the payments of principal of and interest on the Bonds, and the DPW shall also, at least 30 days before each payment is due to be made by the Township, advise the Treasurer of the Township of the amount payable to the County on such date. If the Township fails to make any payment to the County when due, the same shall be subject to a penalty of 1% of the amount due for each month or fraction of a month that such amount remains unpaid after it is due. Failure of the DPW to furnish the schedule or give notice as above required shall not excuse the Township from the obligation to make payment when due. Payments shall be made by the Township when due whether or not the Project has then been completed or placed in operation. The foregoing obligations shall apply to all Bonds issued by the County to defray the Cost of the Project.

In the event the County is required to pay any amounts to the United States Department of Treasury (the "Treasury") because of regulations issued by the Treasury or the Internal Revenue Service, the Township shall reimburse the County for such amounts.

7. Advance Payments. If the Township pays the Cost of the Project or any portion of it prior to the issuance of the Bonds, then the obligations of the Township shall be adjusted accordingly. The Township may pay in advance of maturity all or any part of a semiannual installment due to the County on the Bonds by surrendering to the County bonds issued hereunder of a like principal amount maturing in the same calendar year or by paying cash to the County and requesting the County to purchase any Bonds or call any Bonds in accordance with their terms.

8. Use of Excess Bond Proceeds. The proceeds of the sale of the Bonds shall be used solely and only to pay the Cost of the Project. After completion of the Project and payment of all Project Costs, any surplus remaining for the sale of the Bonds shall, at the option of the Township, be (a) used, with the review and approval of the DPW (which review and approval shall be in accordance with the same planning standards employed to review the Project originally, subject to all applicable laws, regulations and governmental standards then in effect), to extend, enlarge or improve the Project or any other project which has been constructed and/or maintained by the County for the benefit of the Township, (b) retained by the DPW for the payment of principal of and interest on the Bonds, or (c) used to purchase the Bonds on the open market. In the event such surplus is used for principal and interest or used to purchase Bonds, the contract obligation of the Township with respect to such Bonds or maturities shall be reduced accordingly.

9. Refunding and Advance Refunding. In the event it appears advantageous in the opinion of the County's Financial Consultant to issue bonds to refund any series of bonds issued by the County pursuant to this Contract (including advance refunding bonds), the Township consents to the such refunding so long as:

(1) In the case of any refunding bonds and the first issue of advance refunding bonds, there is a net overall saving to the Township in its remaining payments to the County of at least 5% or \$20,000, whichever is less.

(2) In the case of any refunding not covered in subparagraph (1), the Township consents to such refunding.

10. Full Faith and Credit. The Township, pursuant to the authorization of Section 12(2) of Act 185, hereby pledges its full faith and credit for the prompt and timely payment of its obligations expressed in this Contract. Each year the Township shall levy a tax in an amount which, taking into consideration estimated delinquencies in tax collections, will be sufficient to pay its obligations under this Contract coming due before the time of the following year's tax collections, provided, however, that if at the time of making its annual tax levy, the Township shall have on hand in cash other funds or reasonably expects to receive other funds (from special assessments (including received or anticipated prepayments thereof), user charges, connection fees or otherwise) which have been or will be set aside and pledged or are otherwise available for the payment of such contractual obligations falling due prior to the time of the next collection, then the annual tax levy may be reduced by such amount. In the event amounts pledged to or otherwise earmarked for payment of the Bonds are received in amounts so great as to jeopardize the status of the County's Bond Payment Fund as a bona fide debt service fund for purposes of federal tax regulations, the County shall, within 30 days prior to the next scheduled payment of principal on the Bonds, devote such excess sum toward the purchase of Bonds on the open market. Any taxes levied by the Township shall be subject to the applicable statutory, charter and constitutional tax limitations.

11. Failure to Pay; Remedies. In the event that the Township fails for any reason to pay to the DPW the amounts required to be paid under this Contract when due, (1) the County Treasurer is authorized to notify the State Treasurer, or other appropriate disbursing official, of such failure, and the State Treasurer or other appropriate disbursing official shall deduct the amount due the County from any moneys in his or her possession belonging to the Township which are not pledged for the payment of debt and pay the same to the County, all as provided in and governed by Section 17 of Act 185, and/or (2) the County Treasurer is authorized to withhold payments which would otherwise be due to the Township from the County's Delinquent Tax Revolving Fund, in each case such withheld funds to be applied to the Township's obligations under this Contract. In addition to the foregoing, the County shall have all other rights and

remedies provided by law to enforce the obligations of the Township to make payments to the County under this Contract. The Township acknowledges that such payments are to be pledged for the payment of the principal of, premium, if any, and interest on the Bonds, and the Township covenants and agrees that it will make its required payments to the County promptly and at the times specified in this Contract, without regard as to whether the Project is actually completed or placed in operation.

12. Change in Township. No change in the jurisdiction over territory in the Township shall in any manner impair the obligations of this Contract. In the event all or any part of the territory of the Township is incorporated as a new city or is annexed to or becomes a part of the territory of another municipality, the municipality into which such territory is incorporated or to which such territory is annexed, shall assume the proper proportionate share of the contractual obligations and right to capacity in the Project of the Township from which such territory is taken in accordance with law.

13. Additions to or Extensions of Project. The County shall not be obligated to acquire or construct any facilities other than those described in paragraph 2 above. The responsibility for providing such additional facilities as may be needed shall be that of the County which shall have the right to cause to be constructed and maintained, through the County, such necessary additional facilities. No extensions of the Project shall be made without DPW approval, which shall have the right to cause to be constructed and maintained, through the County, such necessary additional facilities. No extensions of the Project shall be made without DPW approval, which approval shall be limited to approval of appropriate plans, specifications and construction and health standards.

14. Ownership of Project. The County, subject to the terms of this Contract and during the term of this Contract, shall have legal title to the Project. After the retirement of the Bonds, and after the Township's obligations under this Contract are satisfied, the legal title to the Project shall be transferred to the Township.

15. Operation of the Project.

a. Pursuant to the Contract, the County hereby leases the said improvements to the Township in consideration of the proper operation and maintenance of such by the Township and the Village and in accordance with all of the terms and conditions of the Contract.

b. The term of this lease shall be one day longer than the term of the Bonds issued by the County to finance the Project.

c. The right and benefit of any warranty on equipment used in this system are hereby assigned to the Township.

d. The Township shall prior to actually taking over operation of the Project, examine the said improvements and acknowledge that they find such to be in proper condition. Once the Township takes over the Project and leases such improvements from the County the Township agrees to maintain and operate the Project in accordance with all of the terms and condition of said Contract. It also agrees to provide the County at least annually with audited statements concerning the operation, maintenance and repair of such improvements.

e. The Township will carry a comprehensive insurance liability policy in the amount of not less than \$500,000.00 for injuries to any one person and \$1,000,000.00 for any one incident; and property damage insurance in an amount not less than \$500,000.00; insuring both the County and the Township against such claims.

f. The Township agrees to pay to the County during the terms of this Contract all expenses incurred by the County in regard to said improvements and said Bonds, including, but not limited to, paying agent fees, administrative costs, legal fees, insurance costs, and bond coupon handling fees. such expenses of the County shall be paid at least semi-annually by the Township at the time it is billed for such by the County.

16. Costs and Expenses. The parties agree that the costs and expenses of any lawsuits arising directly or indirectly out of this Contract or the construction or financing of the Project, to the extent that such costs and expenses are chargeable against the County or the DPW, shall be deemed to constitute a part of the Cost of the Project and shall be paid by the Township in the same manner as provided in this Contract with respect to other Costs of the Project. In the event of such litigation, the DPW shall consult with the Township and shall retain legal counsel agreeable to the County and the Township to represent the County. If the County and the Township cannot agree as to such representation within a reasonable time, the DPW shall exercise its discretion as to the retention of such counsel.

17. Refunding Bonds. Paragraph 9 of the Contract dated as of March 27, 1978 between the County and the Township is amended to read as follows:

9.A. The Board shall take the following steps to refund the bonds originally issued to finance the System.

(1) The Board of Commissioners of the County will adopt a resolution providing for the issuance of bonds in an aggregate principal amount of up to One Hundred Ninety-Six Thousand Dollars (\$196,000) and subject to adjustment, to refund the Prior Bonds issued to finance the System. Said bonds shall mature serially as provided by a Resolution of the Board, and shall be secured by the contractual obligations of the Township

to pay the installments due, plus interest, as hereinafter provided in this Contract. After due adoption of the resolution, the Board will take all necessary legal procedures and steps necessary to effectuate the sale and delivery of said bonds.

(2) The County upon receipt of the proceeds of sale of the bonds, will comply with all provisions and requirements provided for in the resolution authorizing the issuance of the bonds and this Contract relative to the disposition and use of the proceeds of sale of the bonds.

9.B. The cost of the System to be financed by the issuance of the aforesaid bonds shall be charged to and paid by the Township to the County in the manner and at the times herein set forth. The principal amount thereof shall be paid to the County on the due dates and in the amounts as set out in a Resolution to be adopted by the Board of Public Works after the Bonds are sold. It is understood and agreed that the bonds of the County hereinbefore referred to will be issued partly in anticipation of the above contractual obligation, with principal maturities on the first day of the next calendar month following the due date of principal installments, in amounts corresponding to the principal amount of the above installments, and the Township shall also pay to the County in addition to said principal installments, on May 1st and November 1st of each year, commencing with November 1, 1995, as accrued interest on the principal amount remaining unpaid, an amount sufficient to pay all interest due on the next succeeding interest payment date on said County bonds from time to time outstanding for which interest has not been capitalized. The Township hereby specifically agrees that the bonds shall bear such rate or rates as may be determined upon public sale thereof, but not to exceed 9% per annum. From time to time as the County is billed by the paying agent or agents for the bonds to be issued for their services as paying agent, or registering or transferring bonds, and as other costs and expenses accrue to the County from handling of the payments made by the Township, the County shall notify the Township of the amount of such paying agency fees and other costs and expenses, and the Township shall, within thirty (30) days from such notification, remit to the County sufficient funds to meet such paying agency fees and other costs and expenses.

The County shall, within thirty (30) days after the delivery of the County bonds hereinbefore referred to, furnish the Township with a complete schedule of maturities of principal and interest thereon, and the County shall also, at least thirty (30) days prior to

the due date of any Township debt service payment hereunder, advise the Township in writing of the exact amount of interest or principal and interest due on the County bonds on the next succeeding maturity date.

If any principal installments or interest is not paid when due, the amount not so paid shall be subject to a penalty, in addition to interest, of one percent (1%) thereof for each month, or fraction thereof, that the same remains unpaid after the due date.

9.C. The Bonds shall be issued in anticipation of, and be payable from, the payments to be made by the Township to the County as provided in this Contract, and shall also be secured by the full faith and credit and limited taxing power of the County.

9.D. All references to "bonds" wherever found shall also include "Bonds" as defined in amended Paragraph 9.

18. DPW Authority. All powers, duties, and functions vested by this Contract in the County shall be exercised and performed by the DPW, for and on behalf of the County, unless otherwise provided by law or in this Contract.

19. Invalidity of Provisions. In the event that any one or more of the provisions of this Contract shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions of this Contract, but this Contract shall be construed as if such invalid, illegal or unenforceable provisions had never been contained herein.

20. No Impairment of Bondholder's Interests. The County and the Township each recognize and declare that the holders from time to time of the Bonds issued by the County under the provisions of Act 185, and secured by the full faith and credit limited tax pledge of the Township to the payment of the principal of and interest on the Bonds as set forth in this Contract, will have contractual rights in this Contract and it is therefore covenanted and agreed by each of the parties that so long as any of the Bonds remain outstanding and unpaid, the provisions of this Contract shall not be subject to any alteration of or revision which would in any manner adversely affect either the security of the Bonds or the prompt payment of principal of or interest on the Bonds. The right to make changes in this Contract, by amendment, supplemental contract or otherwise, is nevertheless reserved insofar as the same do not have such adverse affect. The Township and the DPW further covenant and agree that they will each comply with their respective duties and obligations under the terms of this Contract at the times and in the manner set forth in this Contract, and will not suffer to be done any act which would in

any way impair the Bonds, the security for them, or the prompt payment of principal of and interest on the Bonds.

21. County Treasurer. It is understood that the County Treasurer may act as the Treasurer of the DPW and that the County Treasurer will have the responsibility to invest all funds coming into the County's possession in connection with the Project. The Treasurer is accordingly authorized to invest any such surplus funds in any obligations permitted by law and credit investment earnings for the benefit of the Township to the fund earning the same.

22. Miscellaneous.

a. Effective Date. This Contract shall become effective after approval by the legislative body of the Township and by the Board of Commissioners of the County, and execution by the authorized officials of the parties. It shall terminate 40 years from its date or upon the earlier payment in full of all principal of, premium, if any, and interest on the Bonds, at which time the full right, title and ownership to the Project shall revert to the Township. The County shall take any and all necessary actions to fully transfer ownership of the Township's part of the Project to the Township, at no cost to the Township, upon the termination of this Contract.

b. Counterparts. This Contract may be executed in several counterparts each of which shall be deemed one and the same agreement. It shall be binding upon and inure to the benefit of the parties to it and their respective successors and assigns.

c. Contingency. This Contract is contingent upon the County issuing its Bonds to defray the cost of acquiring and constructing the Project, and nothing contained in this Contract shall require the County to acquire or construct the Project if it is unable, after use of its best efforts, to sell the Bonds to finance the same.

d. Governing Law. This Contract shall be interpreted under the laws of the State of Michigan.

e. Authority. Each party warrants and represents that the execution and performance of this Contract have been duly authorized by all necessary action and do not contravene any policy, resolution or controlling rule.

f. Entire Agreement. This Agreement sets forth the entire agreement between the County and the Township with respect to the subject matter of this Contract.

g. Captions and Bylines. The captions and bylines used in this Contract are for the convenience of reference only and in no way define, limit or describe the scope of intent of any provision of this Agreement.

h. Use of the Singular. The use in this Contract of the singular shall be deemed to be and include the plural (and vice versa) where applicable.

IN WITNESS WHEREOF, the parties have caused this Contract to be executed and delivered, by their respective duly authorized officers, all as of the day and year first above written.
